## Career Objective

---

I am willing to express my interest in the Web Developer position. As a computer science student, I have been learning the latest programming languages, frameworks, and tools that are essential for the development of modern web applications. With a deep understanding of HTML, CSS, JavaScript, vue, node js, PHP, Wordpress, Laravel Framework and Symfony Framework I am confident that I can bring a fresh perspective and innovative ideas to your team. I am especially in this opportunity because your company has reputation for delivering high-quality Software solutions for clients.
